**Only humans oppress female counterparts: Bruno Smadja**

Hyderabad, Mar (UNI) Human beings are perhaps the only living species who oppress women of their own kind whereas in other living beings we don't see that they discriminate against their female partners. It is our responsibility to make women empowerment successful, Bruno Smadja, Founder, Mobile Film Festival (MFF), Paris, France, expressed these views on Monday while speaking virtually on the occasion of International Women's Day.

The Instructional Media Centre (IMC), Maulana Azad National Urdu University (MANUU), in collaboration with Mobile Film Festival, organized a unique Film Festival based on the theme of Women Empowerment, a release here said.

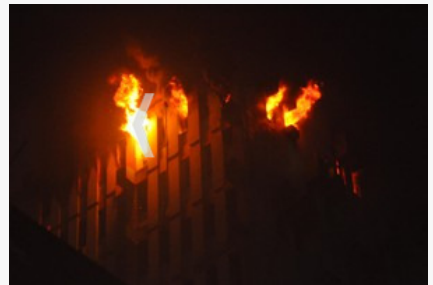

Sixty inspirational films of 1 minute duration each from 25 countries were screened at IMC Preview Theatre, MANUU as well as live streamed on IMC YouTube Channel and other social media platforms.

Speaking as the Chief Guest, Mr. Bruno said Women's day is not for one day but for every day and it is not only the responsibility of women themselves but it is our responsibility to make women empowerment successful. Film makers in general take this engagement and try to portray how we can support women in society, education and every moment of life in a positive way through films, he added.
