1) VICE CHANCELLOR'S LEAD-IN

This is the 23rd Annual Report of Maulana Azad National University (MANUU). Established in 1998, by the Government of India by an Act of parliament, MANUU has risen to a status of an unparalleled premier higher education institution of India, which provides education in Urdu through both regular and distance modes.

During 2020-2021, the period of this 23rd annual report, 'campus education delivery system' has incredibly changed due to Covid-19 pandemic and subsequent lockdowns all over the world, let alone India. The universities have to empty their campuses keeping health safety and life above all necessities and requirements of human progress of which naturally education is one. But again salute to the ingenuity of those who never give up in any situation to come up with alternative solutions so that the march of advancement in education, science and technology continues. The progress made in educational technology came to the rescue of higher education. The delivery of education and knowledge shifted from in-person to online education. And MANUU has been in the forefront in rendering education to its enrolled students employing and engaging all sorts of resources available to it. From telecommunication technology to social networking online platforms, every possible and easily accessible resource is used by MANUU to impart education to its students. MANUU organized online classes, conducted examinations and declared result in time as directed by the University Grants Commission (UGC) and Ministry of Education (formerly Ministry of Human Resources and Development). MANUU also completed admissions for the academic year 2020-2021 on merit and entrance basis. And everything was done online. It implemented and maintained the University Grants Commission's (UGC), Ministry of Education's (MoE), Ministry of Health's (MoH), Government of India, and World Health Organisation's (WHO) guidelines and regulations fully for conducting all its academic and administrative activities. Since MANUU is a national and dual mode university with its campuses and constituent colleges located at least in 14 states of India, it implemented the respective states' guidelines and regulations accordingly for conducting the academic and administrative activities there. Sometimes, natural and unexpected calamities prepare us to face challenges unknown which surface from time to time. The entire world coming together to help one another and India's massive contribution to the world in terms of developing Indian vaccine for Covid-19 pandemic and providing millions of vaccine doses to different countries all around the world, and initiating humongous vaccination drive in India itself has brought the country to the top nations of the world, which lead in health sciences and which contribute to general health safety of the citizens of different nations of the world. MANUU has also saw to it that its staff and faculty are fully vaccinated and fit to continue to serve education and provide whatever help it could to all those in need. It has set up vaccination camps, and quarantine center in its Hyderabad Campus.

Since the situation has been returning to normal, MANUU started in-person academic rendering of education in a phased-manner.

MANUU had Prof. Ayub Khan, Prof. Fatima Begum, and Prof. S. M. Rahmatullah as Vice Chancellors, Incharge during this period of report, i.e. 2020-2021.

MANUU's object is to promote higher education and research through the medium of Urdu, provide technical education in Urdu and to focus on women education. I have taken up these as my charter of policy to raise the standard of MANUU to excel not only nationally but internationally.

After, taking the Vice Chancellorship of MANUU, I am focusing on research and expecting all the teachers and students to deliver on this front. Carrying out research, publishing, bringing research projects and consultancy work must be every teacher's priority. I have

already issued guidelines with timelines for every teacher in every department with regard to their academic commitments and contributions.

MANUU possesses tremendous campus but sans some facilities for students and staff. My focus is on providing these facilities and services related to students' and staff's living within the Campus. The work has begun on this front as well.

Since MANUU has its presence all over India, in the form of Colleges of Teacher Educations (CTEs), Satellite Campuses, Regional Centres (RCs) and Sub Regional Centres(SRCs), Polytechnics, Schools and Industrial Training Centres (ITIs), building infrastructure and providing facilities and services in these institutions have also begun so that simultaneous development in all institutions connected with MANUU can take place.

I hope with the introduction of National Education Policy (NEP)-2020, MANUU may emerge as a leading University of India in implementing quality education policy and providing quality education in Urdu to all those who aspire.

This report should provide in detail the academic progress and administrative efficiency that MANUU continued despite the precarious conditions due to Covid-19 pandemic in the country.

I thank the Ministry of Education (MoE), University Grant Commission (UGC), National Council for Teacher Education (NCTE), the Distance Education Bureau (DEB), the All India Council of Technical Education (AICTE), the National Assessment & Accreditation Council (NAAC) for support, cooperation and guidance at all the levels and phases of MANUU's advancement in education.

I also thank all the members of the faculty, staff of MANUU for their academic and administrative efforts respectively and welcome and congratulate all the students for choosing or getting the opportunity in MANUU to materialize their educational aspirations.

Professor Syed Ainul Hasan
Vice Chancellor, MANUU

Department of Social Work:

The Department of Social Work aspires to develop social work professionals with an inclination and orientation to work with the marginalized sections and contribute to human well being. The department owes this to the very mandate of Maulana Azad National Urdu University (MANUU) which is expected to provide higher, technical and professional education, and to promote Urdu- the repository of composite Indian culture.

The Department of Social Work is presently offering Master of Social Work (MSW) program for Urdu knowing students. The majority of students have a challenging life trajectory and we, at the Department of Social Work, see it as a great opportunity to work with these students. The Department has also started PhD programme from academic session 2014-15.

With the first batch of MSW starting in 2009, the department has evolved to develop a large network with the NGOs and governmental agencies in and around Hyderabad. This has resulted in effective and rigorous field work training. The experiences of running the course, consistent queries from students, feedback from the pass-out social work students, the Department's own assessment of the market requirements, the mandate of MANUU and Urdu as medium of instruction resulted in innovative teaching and learning methods.

This is reflected in the initiative at the Department called Innovative Academic Interventions. The regular weekly individual conferences, field work seminars and skill labs have added to the creativity and commitment of the Department to enhance and enrich the knowledge and

skill base of students. More recently Department is experimenting with visual narratives through documentary film screenings and post-screening discussions for making sense of (hegemonic) common sense. It endeavors to facilitate students in questioning their own perceptions, develop sensitivity to issues and imbibe progressive human values.

The curriculum supplements the quest of the Department of Social Work at Maulana Azad National Urdu University (MANUU), Hyderabad to develop professionals capable enough to feel, reflect and challenge the oppressive social structures within the society; locate problems areas; develop intervention plans; and contribute in the overall development processes.

Department of Women Education:

The Department of Women Education was established in 2005. The Department offers MA and PhD programmes in Women's Studies since its inception. A multi-pronged approach is called for at all levels in developing, strengthening, and harnessing the female resource of the country. Despite being the most unconventional and a new entrant into Academics, Women's Studies is simultaneously a discourse, a methodology and an agenda for action. The subject matter of this course is "Women" and hence it transcends boundaries of disciplines and eventually assumes inter-disciplinary nature. The programmes are designed with an aim to empower students with adequate knowledge of their rights and privileges and to train them to emerge as successful change-agents in the desired direction of social transformation.

Centre for Professional Development of Urdu Medium Teachers (CPDUMT)

The significant role of teachers in social engineering and nation building is universally recognized. However, a teacher cannot discharge his/her duties in today's fast changing world as per the need of the hour unless he/she is well trained and kept on refreshing his/her knowledge through periodical orientation and refresher courses. Therefore, to make the teachers a national asset, the adequate arrangements of teachers' periodical trainings are indispensable. There is no gainsaying the fact that teachers of Urdu medium schools, spread across India, must be imparted trainings so that they update their knowledge and skills and in turn contribute their best to the nation. This very idea induced the government to ponder over establishing such centres/academies that might be instrumental in arranging orientation/refresher courses as well as other activities to ameliorate the professional skills of Urdu medium teachers which eventually led to the sanction of 'Centre for Professional Development of Urdu Medium Teachers (CPDUMT)' by the University Grants Commission, at Maulana Azad National Urdu University, Hyderabad, in October 2006. The Centre has taken up the responsibilities aiming at the professional development of Urdu medium teachers
