Description:

A Workshop on Scholastic Achievement Test was conducted by Dr. Shaheen Parveen, Assistant Professor, as a Resource Person for the students of B.Ed 3rd Semester. The Workshop was conducted & continued in two sessions. The 1st session started at 2.00 o'clock. The Resource Person, Dr. Shaheen Parveen conducted the session with great dedication. She explained the concept with the help of PPTs. The students participated with full enthusiasm and showed interest in the session. The 2nd session was from 3.40 pm to 5.40 pm. In this session, the students were divided in seven different SITP (School Internship & Practice Teaching) groups and they constructed the SAT of both the methods (MOT 1 & MOT 2) under the supervision of their respective Supervisors.

The main objective of the workshop was to train the pupil teachers to evaluate achievement or academic performance of the school students. An achievement test measures how an individual has learned over time and what the individual has learned by analyzing his present performance. It also measures how a person understands and masters a particular knowledge area at the present time. With this test, we can analyze just how quick and precise an individual is in performing the tasks that they consider an accomplishment.

The Principal appreciated the efforts taken by Dr. Shaheen Parveen and all faculty members. She also motivated the students for their zeal and dedication.
