

A Report on a Awareness Programme on SAY NO TO PLASTIC

‘SAY NO TO PALASTIC’ AWARENESS PROGRAMME has gained momentum in the students of MANUU CTE, Aurangabad. In order to create mass awareness among the students and society at large awareness programme was organized in CTE Aurangabad on 6/10/2023 The use of polythene bags, plastic made things, were banned as they have harmful effect on us. Students should be made aware that the use of plastics should be avoided even at their homes. Plastics are a big nuisance, they choke the already fragile sewerage system, when burnt they produce highly toxic gases which create health hazards for all of us. Animals and birds also mistake them for food and they get stuck in their bodies and endanger their lives through dreadful bacteria. Student take pledge to use paper bags instead of plastic bags they also promised that they would aware that others about saying ‘No’ to them. All the student volunteers were asked to gather in the society from where the whole campaign had to be started. People in the colony were told about the harmful effects of using plastic and asked them to use jute bag instead of a plastic bag. They were also advise them to use steel bottles or a plastic bottle which can be recycled for drinking purpose.

The students participated in the Say o to Plastic campaign with full energy and enthusiasm.
