Internal Quality Assurance Cell (IQAC) Information required from 1st April 2023 to 30th May 2024

(The information sought below will be used for the preparation of University Annual Report and AQAR)

1	a) Name of the School:	School of Technology
	b) Name of the Department:	Computer Science and Information Technology

2 Date of Establishment:	2006

3	Profile of the Department	 (Strengths, Weaknesess, Opportunuties and Challenges(SWOC) Ananlysis of the Department and Status of NEP implementation to be detailed in 500-100 Department of Computer Science & Information Technology at Maulana Azad National Urdu University was established in 2006 with one year Post Grad Technology (PGDIT). The objective of the department is to impart quality education and achieve the vision of excellence in the field of Computer Science technology and continuous need for innovation, department is committed to produce quality professionals in both the academia and IT industry. The Department started Master of Computer Applications (MCA) in 2011 to develop core competency in computer applications and inculcate students wi as well as to take up challenges in the research. Department started B.Tech (Computer Science) in 2013 to imbibe entrepreneurship skills in the youth and to tackle the problem of real life issues. All the program (B.Tech, M.Tech and MCA) are approved by All India Council for Technical Education (AICTE) To ignite the minds with quality research, Department of CS&IT started Ph.D. program in Computer Science with effective from 2013. Further to provide research expertise, the department sit is adequate learned faculty members. Strengths: The core competence of the department is its adequate learned faculty members. Sufficient number of laboratories with adequate technical support and help. Weakness: To provide the training for diverse students with different backgrounds. Opportunities: With an establishment around IT Hub in the city and prominent location to provide employable skilled manpower as per the local needs and the global statchallenges: To establish strong bondage between the department and Industry.
---	---------------------------	--

 4
 Name of Head of the Department:

 Dr. Pradeep Kumar

5 Details of the Faculty:

Details of Faculties in the Department

Name	Designation	Highest Qualification	Nature of Appointment (Regular/Guest
Prof. Abdul Wahid	Professor	P.hD	Permanent
Prof. Pradeep Kumar	Professor	P.hD	Permanent
Dr. Syed Imtiyaz Hassan	Associate Professor	P.hD	Permanent
Mrs. Tunga Arundhati	Assistant Professor	M.Tech Ph.D(Pursuing)	Permanent
Dr Bonthu Kotaiah (On Lien)	Assistant Professor	P.hD	Permanent
Dr. Khaleel Ahmad	Assistant Professor	P.hD	Permanent
Mrs. Khaleda Afroaz	Assistant Professor	M.Tech Ph.D(Pursuing)	Permanent
Mrs.Afrah Fatima	Assistant Professor	P.hD	Permanent
Mr. Ahmad Talha Siddiqui	Assistant Professor	M.Tech Ph.D(Pursuing)	Permanent

B

1000 words): Graduate Diploma in Information ence & IT. With rapidly evolving

s with software development skills, and develop quality professionals TE). vide academic training and

standard.

uest Faculty/Contractual)Remarksnent

Mr. Mohd Omar	Assistant Professor	M.Tech Ph.D(Pursuing)	Permanent
Mr. Mohd Rafeeq	Assistant Professor	M.Tech Ph.D(Pursuing)	Permanent
Dr. Muqeem Ahmed	Assistant Professor	M.Tech Ph.D(Pursuing)	Permanent

11 Learning Outcomes: (Please provide the syllabus for each programme/course highlighting the program outcomes, program specific outcomes, and course outcomes)

(a) Programme Outcomes:

B.Tech (Computer Science) BTCS science in different domains 3. Understands the Legal, Professional and Ethical Problems. 4. Recognize the importance of continuous learning	Programme Name	Programme Code	List the programme outcome	Link to the programme
5 Application of Capping divide in multidiagin in any orage		BTCS	 Design a system to meet the desired needs in real life. Apply knowledge of Mathematics, Statistics and computer science in different domains Understands the Legal, Professional and Ethical Problems. 	https://manuu.edu.in/sites/default/file 5_B.Tech(CS)LOCF_Syllabus_9 f

files/CSIT/Syllabus/locf/2024-2 us_%26_Curriculum_-_V1.3.pd

M.Tech (Computer Science)	MTCS	 1.Practice with an expertise in academics, entrepreneurship, design and development in computing technology, or research in a specialized area of computer science and Engineering to pursue higher studies. 2.Exhibit analytical, decision •making and problem solving skills by applying research principles for handling real life problems with realistic constraints. 3. Ability to communicate the findings or express innovative ideas in an effective manner with an awareness of professional, social and ethical responsibilities. 	https://manuu.edu.in/sites/default/files/CSIT/Syllabu 5_M.Tech(CS)LOCF_Syllabus_%26_Curriculu f
M.Tech (Computer Science & Engineering) Artificial Intelligence and Machine Learning Part-time under sponsored/self financed	MTCS	 To create an ambiance for healthy teaching-learning process and attract the motivated students to the Department of Computer Science and Information Technology Ensure that the curriculum followed is comparable to the relevance of local, national, regional and global development To motivate the potential faculty members/educators who are constantly upgrading their pedagogical approaches to motivate students and to enhance learning among them Provide opportunities to students for global exposure, industrial internships, project based and research-based learning 	https://manuu.edu.in/sites/default/files/CSIT/Syllabu 4MTechCSEAI%26MLPart-time-LOCFSyllabus%20 V13.pdf
MCA(Master of Computer Application)	ММСА	 Realize the uncertainty that is involved in a situation described Select a suitable probability model Estimate and test its parameters on the basis of real data Compute probabilities of interesting events and other vital characteristics 	https://manuu.edu.in/sites/default/files/CSIT/Syllabu 5_MCALOCF_Syllabus_%26_CurriculumV1
MCA(Master of Computer Application) Bridge Couirse	ММВС	 Realize the uncertainty that is involved in a situation described Select a suitable probability model Estimate and test its parameters on the basis of real data Compute probabilities of interesting events and other vital characteristics 	https://manuu.edu.in/sites/default/files/CSIT/Syllabu 3_MCA%20Bridge%20Courses%20-%20LOCF%20 %26%20Curriculum%20-%20V1.2%20(1).pdf
PhD(Computer Science)	PHCS	 Demonstrate knowledge of technological advances through active participation in life-long learning Accept to take up responsibilities upon employment in the areas of teaching, research. Independently carry out research/investigation and development work to solve practical problems. Engage in life-long learning and professional development through self-study, continuing education, professional and doctoral level studies 	https://manuu.edu.in/sites/default/files/CSIT/Syllabu 5_Ph.D(CS)LOCF_Syllabus_%26_Curriculum_

Note: 1) *The details of all the programmes listed at table No.6 need to be provided. 2) Additional rows may be added if required.*

Name of the Programme	Name of the Course	Course Code	List the Course Outcomes	Link to the syllabus
			CO1 Apply differential and integral calculus to notions of	
			curvature to	
			improper integrals and various engineering problems.	
			CO2 Find the rank of matrices and linear algebra including linear	
	Engineering Mathematics-I	BTCS101BST	transformations, eigenvalues, diagonalization and	
B.Tech(Computer Science)			orthogonalization.	Learning Outcomes based
			CO3 Evaluate the partial derivatives of first and higher orders.	Curriculum Framework
			CO4 Demonstrate various applications with basic understanding	(LOCF) for Bachelor of
			of Beta and Gamma functions.	Technology (Computer
			CO1 Understand the Bragg's Law and the principles of lasers,	Science) B.Tech. (CS) (wef
			types of lasers and applications.	
			CO2 Apply various terms related to properties of materials such	
			as, permeability, polarization, etc.	
			CO3 Analyze some of the basic laws related to quantum	
			mechanics as well as magnetic and dielectric properties of	
			materials.	
			CO4 Analyze and evaluate and simple quantum mechanics	
	Engineering Physics	BTCS102BST	calculations.	_
			CO1 Understanding of the basic knowledge of electrical	
			quantities such as current, voltage, power, energy and frequency	
			to understand the impact of technology in a global.	
			CO2 Illustrate an understanding of basic concepts of analysis of	
			simple DC and AC circuits used in electrical and electronic	
			devices.	
			CO3 Demonstrate an understanding of selection skill to identify	
			the type of motors required for particular application. PO2, PO3	
			CO4 Analyze and evaluate the effects of electric shock and	
	Basic Electrical Engineering	BTCS101EST	precautionary measures	_
			CO1 Get acquainted with the knowledge of various lines,	
			geometrical constructions and construction of various kinds of	
			scales, and Ellipse.	
			CO2 Improve their imagination skills by gaining knowledge	
			about points, lines and planes.	
			CO3 Become proficient in drawing the projections of various	
			solids	
			CO4 Gain knowledge about orthographic and isometric	
	Engineering Graphics & Design	BTCS111EST	projections	J

		CO1 Learn basic properties and characteristics of light, Double
		slit and triple slit interference, Newton's rings, interference in thin
		films.
		CO2 Apply the working principle of LASER, laser action,
		population inversion, Einstein coefficients, elementary laser types
		and applications of LASER.
		CO3 Analyze magnetic field and forces, electric field and usage
		of quantum theory.
		CO4 Evaluate Thermo electric effect – Seebeck effect and Peltier
Engineering Physics Lab	BTCS150BSP	effect
		CO1 Explain the concept of circuit laws and network theorems
		and apply them to laboratory measurements.
		CO2 Understand to systematically obtain the equations that
		characterize the performance of an electric circuit as well as
		solving both DC Machines and single-phase transformer.
		CO3 Analyze the principles of operation and the main features of
		electric machines and their applications PO9
Basic Electrical Engineering Lab	BTCS150ESP	CO4 Evaluate the skills in using electrical measuring devices
		CO1 Understand the ideas of probability and random variables
		and various discrete.
		CO2 Apply continuous probability distributions and their
		properties.
		CO3 Analyze the basic ideas of statistics including measures of
		central
		tendency, correlation and regression.
Engineering Mathematics – II	BTCS201BST	CO4 Evaluate the statistical methods of studying data samples.
		CO1 Understand the knowledge of atomic, molecular and
		electronic changes, band theory related to conductivity.
		CO2 Apply the required principles and concepts of
		electrochemistry, corrosion and in understanding the problem of
		water and its treatments.
		CO3 Analyze the knowledge of configurational and
		conformational analysis of molecules and reaction mechanisms.
		CO4 Evaluate the required skills to get clear concepts on basic
		spectroscopy
Engineering Chemistry	BTCS211BST	and application to medical and other fields.
		CO1 Understand various problem-solving techniques and
		implement them in 'C' language.
		CO2 Apply the basic terminology used in computer programming
		and write, compile and debug programs in C language.
		CO3 Develop programs involving decision structures, loops and
		functions using different data types and data structures.
Programming for Problem Solving	BTCS211EST	CO4 Apply and analyze logical skills to program in C language.

		CO1 Read and write paragraphs in English confidently.
		CO2 Differentiate among homonyms, homophones, synonyms
		and antonyms.
		CO3 Read and write the specific details and information such as
		writing applications, formal letters, CVs, technical reports and
		project reports.
		CO4 Communicate with more confident among students, teachers
English Communication	BTCS211HST	& other stakeholders of the society.
		CO1 Identify the significance of centroid/ centre of gravity and
		find centroids of composite figures and bodies.
		CO2 Understand the moment of inertia and method of finding
		moment of inertia of areas and bodies.
		CO3 Interpret the simple given dynamic problems and solve them
		for positions, velocities and accelerations, etc.,
		CO4 Understand the kinetics of the rigid bodies and solve simple
Engineering Mechanics	BTCS212EST	problems using work-energy method.
		CO1 Outfitted with hands-on knowledge in the quantitative chemical
		analysis of water quality related parameters.
		CO2 Conversant with hands-on knowledge in the quantitative chemical
		analysis of water quality related parameters, corrosion measurement
		and cement analysis.
		CO3 Gain acquaintance in the determination the amount of hardness
		and chloride in the various samples of water for general purpose and
		their use its industries involving boilers.
Engineering Chemistry Lab	BTCS260BSP	CO4 Skills in estimating acidity/alkalinity in given water samples.
8 6 5		CO1 Understand various problem-solving techniques and will be
		able to implement them in 'C' language.
		CO2 Apply the basic terminology used in computer programming
		and write, compile and debug programs in C language.
		CO3 Develop programs involving decision structures, loops and
		functions using different data types and data structures.
		CO4 Analyze and evaluate difference between call by value and
	DTCC2(0FCD	
Basic Programming Lab	BTCS260ESP	call by reference
		CO1 Identify and apply suitable tools for different trades of
		Engineering processes including drilling, material removing,
		measuring, chiselling.
		CO2 Apply to fabricate components with their own hands.
		CO3 Analyze practical knowledge of the dimensional accuracies
		and dimensional tolerances possible with different manufacturing
		processes.
		CO4 Ability to design and model different prototypes in the
Engineering Workshop	BTCS251ESP	carpentry trade such as Cross lap joint, Dove tail joint
		CO1 Student will be able to understand, comprehend.
		CO2 Analyze the professional and soft communication skills.
		CO3 Learn the perfection of understanding in English language.
English Communication Lab	BTCS260HSP	CO4 Can read, write and communicate effectively in English.
		COA Can Icau, while and communicate effectively in English.

		CO1 Understand the characteristics of transistors.
		CO2 Design and analyze various rectifier and amplifier circuits.
		CO3 Analyze the sinusoidal and non-sinusoidal oscillators.
Analog Electronic Circuita	BTCS311EST	CO4 Evaluate the functioning of OP-AMP and design OP-AMP based circuits.
Analog Electronic Circuits	DIC5511E51	
		CO1 Analyze the algorithms to determine the time and
		computation complexity and justify the correctness
		CO2 Implement search problems such as Linear Search and
		Binary Search PO1, PO2, PO3
		CO3 Develop given problem of Stacks, Queues and linked list
		and analyze the same to determine the time and computation
		complexity.
		CO4 To write an algorithm Selection Sort, Bubble Sort, Insertion
		Sort, Quick Sort, Merge Sort, Heap Sort and compare their
Data structure & Algorithms	BTCS311PCT	performance in term of Space and Time complexity.
		CO1 Implement working of logic families and logic gates.
		CO2 Design and implement Combinational and Sequential logic
		circuits.
		CO3 Understand the process of Analog to Digital conversion and
		Digital to Analog conversion.
Digital Electronics	BTCS312PCT	CO4 Implement the given logical problem using PLDs.
		CO1 Demonstrate the ability to solve problems using Ordinary and
		Partial differential equations, Laplace transformation and Numerical
		analysis .
		CO2 Learn the overview of differential equations.
		CO3 Use of equations reducible to exact form using Integrating factors -
		Linear, Bernoulli 's equations.
		CO4 Learn the applications to Newton's Law of Cooling – Law of natural
Engineering MathematicsIII	BTCS311BST	growth and decay.
		CO1 Understand the scientific debates and ethical concerns of
		such issues as global warming, biotechnology, GMO foods,
		healthcare, innovation, and economic competitiveness.
		CO2 Articulate ways in which society is transformed by science
		and technology.
		CO3 Able to integrate, synthesize, and apply knowledge of the
		relationship between science and technology and societal issues in
		both focused and broad interdisciplinary contexts.
Technology & Society	BTCS311HST	CO4 Apply science and technology to real-world problems.
		CO1 Demonstrate the importance of Natural resources.
		CO2 Explain renewable and non – renewable energy sources.
		CO3 Understand the mechanism to control and measures of air
		pollution, water pollution, soil pollution, noise pollution, thermal
		pollution and solid waste management.
		CO4 Develop the working principles of disaster mitigation,
	DTCC210LICT	disaster management cycle. Analyze disaster management with
Environmental Sciences	BTCS312HST	causes, effects and control measures

		CO1 Design and conduct experiments on amplifiers, oscillators
		and multivibrators.
		CO2 Apply the techniques, skills and modern engineering tools of
		electronic circuits for engineering practice.
		CO3 Analyze the operation of oscillators and power supplies.
		CO4 Evaluate the knowledge of Monostable Multivariate,
		Bistable Multivibrator and Arduino and Raspberry Pi based
Analog Electronic Circuits LAB	BTCS360ESP	experiments.
		CO1 Design and analyze the time and space efficiency of the data
		structure and algorithms.
		CO2 Implement the appropriate data structure for given problem
		and algorithms.
		CO3 Design and analyze data structure and algorithms.
		CO4 Conceptualize and build data structure based on application
Data structure & Algorithms LAB	BTCS360PCP	needs.
		CO1 Able to identify, configure and use off-the-shelf digital ICs.
		CO2 Able to realize and troubleshoot combinational and
		sequential digital circuits.
		CO3 Able to employ MSI ICs of appropriate configuration for
		realizing a digital system.
		CO4 Able to design and implement simple digital system for a
Digital Electronics LAB	BTCS361PCP	real-life problem.
0		CO1 Implement scripting and the contributions of scripting languages.
		CO2 Apply Python especially the object-oriented concepts.
		CO3 Analyze and apply built-in objects of Python.
		CO4 Apply Python standard library and Explore Python's
IT Workshop Python	BTCS362PCP	object-oriented features
		CO1 Implement scripting and the contributions of scripting
		languages. PO1
		CO2 Apply Python especially the object-oriented concepts. PO3
		CO3 Analyze and apply built-in objects of Python. PO3
		CO4 Apply Python standard library and Explore Python's
		CO4 Apply 1 yulon standard notary and Explore 1 yulons
		object-oriented

Software Engineering	BTCS406PCT	CO4 Verify and validate various software prototypes and to develop quality software metrics.
	1	$COAV_{a} = 1 = 1 + 1 + 1 + 1 + 1 + 1 + 1 + 1 + 1$
		productive working relationship with project stakeholders.
		CO3 Design and test specific software requirements through a
		complex software systems.
		CO2 Apply mathematics to the development and maintenance of
		science.
		and processes, as well as the theory and principles of computer
		CO1 Understand software engineering theory, principles, tools
Object Oriented Programming	BTCS405PCT	mechanisms and practices in writing Java programs.
		CO4 Apply exception handling, generation and escalation
		across software components and packages.
		CO3 Demonstrate informed use of encapsulation within and
		software.
		classes, and interfaces to achieve polymorphism in object-oriented
		hierarchies from problem statements using sub-classing, abstract
		CO2 Demonstrate best practices in designing classes and class
		inheritance and polymorphism.
		paradigm specifically including abstraction, encapsulation,
		CO1 Understand the principles of object-oriented programming
Operating Systems	BTCS403PCT	synchronization scenarios.
		CO4 Apply semaphores and monitors for classical and real-world
		Input/output, disk access, file systems facilities.
		CO3 Identify the System calls, protection, interrupts and know
		of operating system.
		process, components, or program to meet desired needs in context
		CO2 Design, implement and evaluate a computer-based system,
		and deadlock.
		threads, context switching, synchronization, schedule CPU time,
		the same time and share resources including processes and
		CO1 Demonstrate how to manage multiple tasks that execute at
Lamouse management Systems		1
Database Management Systems	BTCS402PCT	as part of a team.
		system
		control by designing and development of a database application
		concurrency
		CO4 Evaluate various issues of transaction processing and
		evaluation techniques and query optimization.
		hashing, query
		CO3 Analyze and apply indexing methods including B-tree,
		techniques like file and page organizations.
		access
		CO2 Apply and analyze the database storage structures and
		the E-R method and normalization approach.
		including
		algebra expressions for queries, logical design of databases,
		relational

		CO1 Implement various data structures (viz Stacks Overves
		CO1 Implement various data structures (viz. Stacks, Queues, Linked Lists, Trees, Graphs) and algorithms like Greedy,
		Dynamic, Divide & Conquer etc.
		CO2 Analyze step by step and develop algorithms to solve real
		world problems.
Desire 8 Augusta of Alexistic		CO3 Use and implement appropriate algorithms for the required
Design & Analysis of Algorithms	DTCC5(0DCD	problems using a programming language.
LAB	BTCS560PCP	CO4 Analyze the space and time complexity of a given problem.
		CO1 Practice the moral values that ought to guide the Engineering
		profession.
		CO2 Know the definitions of risk and safety also discover
		different factors that affect the perception of risk.
		CO3 Appreciate the Ethical issues and know the code of ethics
		adopted in various professional bodies and industries.
		CO4 Justify the need for protection of human rights and to know
Constitution of India	BTCS511NCT	about concept of women empowerment.
		CO1 Analyze given grammar specification develop the lexical
		analyzer.
		CO2 Apply given parser specification design top-down and
		bottom-up parsers.
		CO3 Develop syntax directed translation schemes.
Complier Design	BTCS611PCT	CO4 Implement algorithms to generate code for a target machine.
		CO1 Demonstrate the different protocols layers of the OSI model
		&TCP/IP.
		CO2 Implement and configure the different types of Networks
		topologies and protocols.
		CO3 Understand the importance of network security in data
		communication.
		CO4 Apply the different Networking sub-systems and their
Computer Networks	BTCS612PCT	functions in a telecommunication system.

Data Structure & Algorithms	MMCA211PCT	 CO1 Understand and analyze the algorithms to determine the time and computation complexity and justify the correctness. CO2 Identify the alternative implementations of data structures with respect to its performance to solve a real-world problem. CO3 Ability to devise novel solutions to small scale programming challenges involving data structures and recursion. CO4 Examine the notations used to analyze the performance of algorithms.
Database Management System	MMCA212PCT	CO1 Learn to design a database for a given set of requirements. CO2 Demonstrate query processing in a database system. CO3 Apply normalization techniques on given database. CO4 Analyze the database storage structures and access techniques.
Java Programming	MMCA213PCT	 CO1 Demonstrate object-oriented paradigms: abstraction, encapsulation, inheritance, and polymorphism. CO2 Elaborate java concepts like exception handling, interfaces, object classes and various libraries. CO3 Design object-oriented solutions for real world problems. CO4 Develop the applications using the learnt concepts.
Computer System Architecture	MMCA214PCT	 CO1 Define the basic organization and design of a digital computer system and its operations CO2 Explain the design of Arithmetic & Logic design circuit and Illustrate the Control unit operations. CO3 Analyze the different ways of communication in Input-Output devices, Standard Interfaces and their functioning. CO4 Illustrate the hierarchical memory system, cache memory and virtual memory
DSE – 1	MMCA21xPET	Course outcomes are with respect to the subject opted by the students.
Data Structure & Algorithms Lab	MMCA260PCT	 CO1 Write the code for a large program after overcoming the time and space complexity. CO2 Develop programs that use arrays, records, linked structures, stacks, queues, trees, and graphs. CO3 Compare alternative implementations of data structures with respect to performance. CO4 Implementation of various algorithms such as searching, sorting, Greedy, Dynamic, Back-Tracking and Branch & Bound.
Database Management Systems LAB	MMCA261PCP	CO1 Design a database for a given set of requirements. CO2 Create relational database system by writing SQL. CO3 Apply normalization techniques on given database. CO4 Analyze the database storage structures and access techniques.

		CO1 Write programs using objects and inheritance in Java
		Language.
		CO2 Develop console application Using Java programming
Java Programming Lab	MMCA262PCP	language.
		CO3 Design and implement GUI programs using components in
		Java Language.
		CO4 Develop real life applications using Java programming.
		CO1 Understand the concepts of data science process, data
		science toolkit, Types of data, Data collection and management
		CO2 Demonstrate the concept and importance of Big Data, Big
		Data Architecture, Hadoop Ecosystem, Hadoop Distributed File
		System (HDFS) HBase, Hive and PIG, Map Reduce Framework
Data Science	MMCA311PCT	
		and Machine Learning
		CO3 Apply the regression and classification problem and create
		the NoSQL Databases.
		CO4 Analyze the data, Applications of Data Science,
		Technologies for data visualization.
		CO1 Understand the concept of abstract machines and their power
		to recognize the languages.
		CO2 Develop the finite state machines for modelling, write
		regular expressions for regular languages. And solving computing
Formal Language & Automata Theory	MMCA312PCT	problems.
-		CO3 Define, analyze, and design context free grammars for
		context free languages
		CO4 Design and analyze Turing machines and to distinguish
		between decidability and undecidability.
		CO1 Understand the blockchain Technology in real life.
		CO2 Apply the smart contracts on Ethereum platform.
Plackahain Technology	MMCA313PCT	
Blockchain Technology		CO3 Develop the use cases on Hyperledger.
		CO4 Analyze the major research challenges and technical gaps
		existing between theory and practice in Blockchain
		CO1 Understand the concepts of computational intelligence like
		machine learning.
		CO2 Apply machine learning techniques to address the real time
Machine Learning	MMCA314PCT	problems in different areas.
		CO3 Perform evaluation of learning algorithms and model
		selection.
		CO4 Analyze and appreciate the applications which can use
		Machine Learning Techniques.
		CO1 Make use of the python libraries, basic Statistical measures
		for data science.
		CO2 Perform descriptive analytics on the benchmark data sets.
Data Science Lab	MMCA360PCP	
		CO3 Perform correlation and regression analytics on standard
		data sets.
		CO4 Present and interpret data using visualization packages in
		Python.

	Blockchain Technology Lab	MMCA361PCP MMCA470PCP	CO1 Understand the functional or operational aspects of cryptocurrency ecosystem. CO2 Demonstrate the emerging abstract models for Blockchain Technology. 	
	Discrete Mathematics	MMBC121FCT	CO4 Able to implement real world problem into software solution.CO1 Develop mathematical and logical thinking. CO2 Utilize the concepts of relations and functions to solve simple real-life problems. CO3 comprehend real life problems it in terms of predicates, quantifiers, and logical connectives and obtained its solution. CO4 Apply logical reasoning to solve a variety of problems.	
	Information & Communication Technology	MMBC122PCT	CO1 Explain and demonstrate various components of Computer. CO2 Analyze the role and importance of ICT in the modern world. CO3 Investigate and propose various requirements of ICT for real world applications. CO4 Evaluate a variety of existing and developing architecture technologies for ICT.	https://manuu.edu.in/sites/de fault/files/CSIT/Syllabus/loc
MCA(Master of Computer Application) Bridge Course	Introduction to Computer System & Hardware	MMBC123PCT	CO1 Utilize the Internet Web resources and evaluate on-line e-business system. CO2 Solve common computer problems using appropriate Information Technology applications and systems	<u>f/2022-23_MCA%20Bridge</u> %20Courses%20-%20LOCF %20Syllabus%20%26%20C urriculum%20-%20V1.2%20 (1).pdf
	Problem Solving Using 'C' Language Lab	MMBC161PCP	CO1 Choose the loops and decision-making statements to solve the problem. CO2 Implement different Operations on arrays. CO3 Use functions to solve the given problem and Understand pointers, structures and unions. CO4 Implement file Operations in C programming for a given application.

15 Feedback System

(Please provide a note on analysis and utilization of the feedback obtained for the overall development of the Department in 500-1000 words).

Action Taken Report on Student's Feedback – (Dec -2023) Total number of responses: 379

Question 1- Course and Objective: 95% responded positively.

Question 2- 95.5% responded positively.

Question 3- Easy access of materials-Positive responses (89.4%) (Course material should be made available)

Primary texts are provided. Bibliography/Reading List is given at the end of the Syllabi and a list of secondary sources is provided for supplementary reading. However in response to the student feedback, secondary material is being provided and students are instructed to make a copy and circulate among themselves. Due to lack of access to computers and printers, students are given a print out by the teacher concerned and the office Xerox machine is used to make minimum copies of the secondary course materials.

Question 4- Rating the teacher and instruction: - The overall response of student's to teacher's instruction was Excellent-74.9%, Good- 16.4%, for Average 20 students responsed and for Poor only 13 students responsed. Each teacher was individually directed to take the necessary self-corrective action for improvement after reading the students' rating in each teacher's IUMS portal.

Question 5-Open ended question: In any other comment, cognizance of the responses of the students was done and faculty requested to address the issues appropriately and directed to take necessary self-corrective action for resolution of the problem.

Action Taken Report on Student's Feedback- (May-2024) Total number of responses: 2174

Question 1- Course and Objective: 93.1% positive response

Question 2- Course and career progression: 94.7% positive response

Question 3- Easy access of materials: 92.1% positive response

Efforts are made to provide access to course material by augmenting the library stock by ordering and acquiring the required and relevant texts. Multiple copies are ordered so as to ensure their availability and circulation. Personally teachers give print outs and handouts of secondary material apart from a bibliography.

Question 4 - Rating the teacher and instruction: Action taken as approximately 54.6% of the total responses received rated the teacher's instruction as excellent while approximately 29.9% rated Good. Since approximately 11.7% responded average and 3.8% responded poor, teachers were individually directed to take necessary self-corrective action for improvement after reading the students' rating in each teacher's IUMS portal. Question 5.-Open ended question: Any other comment: Teachers were individually directed to take necessary self-corrective action for improvement regarding specific remarks against them or overall improvement where

necessary as mentioned by the students.

16 Give details of the mentoring system in the Department in 500 words and provide the circular issued at the begining of the Academic session and Indicate the mentor mentee list.

List out any specific issues encontured during mentoring process Action taken

Mentor-Mentee Allocation

Mentors, typically faculty members with significant teaching and industry experience, are assigned to 10-15 students to ensure adequate attention. This manageable ratio allows mentors to provide personalized guidance tailored to individual student needs.

Mentoring Activities

Regular Meetings: One-on-one meetings between mentors and mentees to discuss academic progress, address concerns, and set goals.

Workshops and Seminars: Organized on various topics like time management, stress management, career planning, and research opportunities.

Group Activities: Group mentoring sessions to foster peer learning and collaboration.

Feedback Mechanism: Structured feedback from students to continuously improve the mentoring system.

yderabad	
yderabad	

Benefits for Students

Personalized Attention: Individualized guidance helps students achieve their academic and personal goals. Enhanced Academic Performance: Early identification and addressing of academic challenges lead to improved performance. Career Readiness: Valuable industry insights from mentors prepare students for future careers.

17 Using ICT for effective teaching and Learning along with details of the ICT enabled teaching learning process (500-1000 words).

(a) ICT tools used for teaching learning process along with few examples

Google Meet, Google class rooms, Moocs NDLI,NTPL,SWAYAM, SWAYAM Prabha DTH Channels National Digital Library, National Academic Depository Spoken Tutorial, Talk-to-a-teacher, Ask a question, Digital Locker eVidwan, Baadal, Campus Connect.

b) Percentage of cources (in the syllabus) which can be opted for Massive Open Online Courses MOOCs

C) Number of students who opted course through MOOCs (CSE,NPTL,Swayam,etc)

d) Provide list of training/orientation programs/workshops conducted or attended on ICT enabled teaching-learning process; content Development etc along with the list of participants attending such programs.

Action Plan/Strategic plan of the department indicating the target set and outcomes achieved for the academic year (to be provided in enclosed template). Focus on Funded Project

18To encourage consultancy by the department.
To motivate our teachers/Research Scholars for more number of patent.

To increase high number of journal Publications

Motivating students for doing real time project and Internship.

19 Research funds sanctioned / received from industry and other organizations by the Department:

Title of the Project	date of sanction	Duration (number of years)	Name of the funding Agency	Total grant sanctioned	Amount received during the year	Name of the P.I/Co P.I(s)	Number of Publications	Completed / Ongoing	link to the Publication
Adaptive Assistive System for Children with Moderate Intellectual Disability	Feb 2022-Feb 2025	Feb 2022-Feb 2025	Ministry of Electronics and Information Technology	104.23 Lakh	42.34 lakhs (sanction order recieved on 02.06.2023	Prof.Abdul Wahid	Nil	Nil	Nil
Adaptive Assistive System for Children with Moderate Intellectual Disability	Feb 2022-Feb 2025	Feb 2022-Feb 2025	Ministry of Electronics and Information Technology	104.23 Lakh	9.54 lakhs (Sanction order received on 14.05.2024)	Prof.Abdul Wahid	Nil	Nil	Nil
A Virtual Reality-Based Assistive System for Learning and Assessment of Persons with Intellectual Disabilities	Dec 2023-Dec 2027	Dec 2023-Dec 2027	Ministry of Electronics and Information Technology	9504.67 Lakh	1900 lakhs (Sanction Order received on 05.12.2023)	Prof.Abdul Wahid	Nil	Nil	Nil
A Virtual Reality-Based Assistive System for Learning and Assessment of Persons with Intellectual Disabilities	Dec 2023-Dec 2027	Dec 2023-Dec 2027	Ministry of Electronics and Information Technology	9504.67 Lakh	436.75 lakhs (Sanction Order received on 29.04.2024	Prof.Abdul Wahid	Nil	Nil	Nil
Additional Rows may be added as	required.	https://drive.google.com/drive/folders/1uRGrobJJqtYO89r1	<u>LHsJxS</u>		· · ·		•		•

Note: Please enclose the sanction letters, details of the patents and copy of On4LnjxCXF?usp=drive_link the publication.

20 Funds / Grants received from alumni, non-government bodies, individuals, philanthropies by the Department:

Name of the alumnus/alumna, non-government funding agency/ individual etc.	Funds/ Grants received in Rs.	Purpose	Facilities Directly Provided if any for a development
NIL			

Additional Rows may be added as required.

Note: *Please enclose the copies of the grant letter/communications*

21 Revenue generated by the Department from Consultancy :

Name of the Consultant(s) /(Department/individual faculty)	Name/Type of Consultancy provided	Consulting/Sponsoring Agency	Revenue generated (amount in rupees)
NIL			

Additional Rows may be added as required.

Note: Please enclose the copies of the relevant consultancy offer letters/communications

22 Corporate Training provided by the Department :

Name of the faculty/experts	Title of the Programme	Agency seeking training	Revenue generated (amount in rupees)	Number of participants
NIL				

Additional Rows may be added as required.

Note: Please enclose the copies of the relevant consultancy offer letters/communications and list of the participants

23 Awards for Patent/Innovation by Department/Teachers :

Title of the Patent/ Innovation	Name of the Author(s)/Awardee	Status (Filed/Published/Awarded)	Date	Name of the Certifying/Awarding agency	Enclose the copies of the relevant certificates/award/photograph receiving the award/ News Paper clipping etc.
A STAIR-BASED ELECTRINIC RECORDS MANAGEMENT SYSTEM FOR SECURE HEALTHCARE INFORMATION	1. PROF. RAEES AHMAD KHAN 2. PROF. ABDUL WAHID 3.DR. SUHEL AHMAD KHAN 4. DR. ALKA	Granted	15/01/2024	Indian Patent	https://drive.google.com/file/d/1dVxvypE L2f_VxdzoQ1gjiU7h1VXIW8qx/view?u sp=sharing

Note: Please enclose the copies of the relevant certificates/award/photograph receiving the award/ News Paper clipping etc.

24 Provide details of the Incubation centre/ startups /IIC established on campus and the contributions of the Department in terms of incubation :

Start-ups incubated on campus by the Department :

Name of the Start-up	Nature of the Start-up	Date of commencement
NIL		

Additional Rows may be added as required.

Note: Please provide the proof

25 Linkages and Collaboration with institutions/industries for internship, on-the-job training, project work, research, faculty exchange, student exchange etc. :

Nature of linkage/collaboration	Name of the Participant	Name of the partnering institution/ industry /research lab/NGO(s) with contact details	start date	end date	Remarks (Please provide details such as Amount recieved in case of Paid Internship/project report details/appriciation letters/paper published or any other outcome of collaborations)
NIL					

Additional Rows may be added as required.

Note: Please enclose the copies of the relevant certificates/photograph/communications with collaborating organization and list of participants.

26 MoUs signed with institutions of national, international importance, other universities, industries, corporate houses etc. :

Organisation	Date of MoU signed	Purpose and Activities	Number of students/teachers
NIL			
Additional Power may be added as	raquirad		

al Rows may be added as required.

Note: Please enclose the list of teacher participated in MoUs and communications w.r.t. the activities organized as the outcome of each MoU

27 Extension and outreach programmes conducted in collaboration with Government and / or Non- Government Organisations, Community, NSS/NCC/Red cross/Youth Red Cross (YRC), Unnat Bharat Abhiyan (UBA) etc., :

Title of the Activity	Organising unit/ agency/ collaborating agency	Name(s) of the teacher(s) coordinating the activity	Names of the students participated in such activities	Date(s) of the activity	Photograph
			Mohd Rahil		

participated under MoUs

Note: Please enclose the copies of the relevant circulars/certificates/photograph/communications/report of the event and list of participants.

28 Awards and recognitions received for extension activities from Government and other Government recognized Agencies/Organizations :

-	in al as and i toog intoins i tooti to				
1	Name of the Activity	Title of the Award/recognition	Awarding Agency	Award received for Students/Teacher/Institution	Name of the Student/Teacher
]	NIL				

Additional Rows may be added as required.

Note: *Please enclose the copies of the relevant certificates/award/photograph receiving the award.*

29 Number of capability enhancement and development Programs organised such as Soft skill development, Remedial coaching, Bridge courses, Yoga, Meditation, Professional/Career Counseling etc.

Name of the capability enhancement programs/activity	Date of implementation	Number of Students enrolled	Agencies involved (if any)/University Placement Cell
Bridge Course for MCA	2023-2024 Odd Semester	14	Department of CS&IT
Discoveria - 7 Days of Domain Discovery	15th - 21st May 2023	96 Registrations	Department of CS&IT
DSA & CP	15th May 2023	100+ Attended	Department of CS&IT
AI, ML & Data Science	16th May 2023	61	Department of CS&IT
Web Dev & UI/UX	17th May 2023	35	Department of CS&IT
DevOps, Cloud & Open Source	18th May 2023	20	Department of CS&IT
App Dev & AR/VR Dev	19th May 2023	25	Department of CS&IT
Blockchain and Web3.0	21st May 2023	30	Department of CS&IT
Meme Competition	Started from 22nd May 2023	Currently Open	Department of CS&IT

Additional Rows may be added as required.

Note: Please enclose the copies of the relevant circulars/certificates/photograph/communications and list of participants.

30 Provide details of redressal of grievances, prevention of sexual harassment and ragging etc. (Provide details in 500-1000 words covering grievance readressal committee constitution, Total grievances received, Total grievances redressed, ⁰ Average number of days for grievance redressal etc.)

Total grievances received	Number of grievances redressed	Average number of days for grievance redressal
NIL		
Additional Rows may be added as a	required.	

Note: Please attach the minutes of the redressal of grievances, prevention of sexual harassment and ragging committee.

31 Number of professional development / administrative training programmes organized by the Department for teaching and non-teaching staff :

Title of the professional development programme organised for teaching staff	Title of the administrative training programme organised for non-teaching staff	Dates (from) (DD-MM-YYYY)	Dates (to) (DD-MN
NIL			

Additional Rows may be added as required.

Note: *please provide the details of circular/certificates/photographs and list of participants.*

32 Provide Details of Technology up-gradation in the Department (number of Computers/Peripherals, Smart Boards, LCD, Projectors, Software procured, wifi bandwidth available etc.) :

Name of the Item	Total number of Quantity	Added during the year	
Computer Monitors	14	2023-2024	

Additional Rows may be added as required.

33 Students qualifying in state/ national/ international level examinations (e.g. NET/SET/SLET/GATE/GMAT/CAT/GRE/TOFEL/Civil Services/State Government Services):

Name of Examination (NET/SET/SLET/GATE/GMAT/ CAT/GRE/TOFEL/Civil Services/State Government Services etc)	Name of the Student	selected/ qualifying	Registration number/roll number for the appreared examination	Documentary proof (e.g: admit card, score card etc.)

35 Details of the Placements of Students during 2023-24 academic year

Name of the Scholar/Student	Highest Programme pursued in MANUU	Name and address of the Institution/Company joined	Salary Package per Annam (INR)	Placement through Campus or Off- Campus mode
Abdul Malik	B.Tech in CS	Winfo Solutions	4,00,000	Off Campus
Md Asif	B.Tech in CS	Celebal Technology	5,00,000	Off Campus
Mo Juned	B.Tech in CS	AVI Software	4,00,000	Off Campus
Mohamad Faridul Hassan	B.Tech in CS	Deloitte	4,50,000	Off Campus
Khan Imran	B.Tech in CS	TCS	4,00,000	Off Campus
Mohammad Anas	B.Tech in CS	GOOGLE OPERATION CENTRE	5,31,000	Off Campus
Md Azam Ali	B.Tech in CS	TCS	4,00,000	Off Campus
Saud Aslam	B.Tech in CS	Deloitte	4,50,000	Off Campus

Mohamed Anas VT	M.Tech in CS	Highlevel	6,00,000	Off Campus
Md Ahteshamul Haque	B.Tech in CS	BPSC HIGH SCHOOL TEACHER	6,00,000	Off Campus
MOHD KASIM	B.Tech in CS	Innovantage	4,50,000	Off Campus
Lal Mohammad	B.Tech in CS	Tech Mahindra	6,00,000	Off Campus
Muhammad Zaid	B.Tech in CS	TCS	3,36,877	Off Campus
MD RASHEDIN	B.Tech in CS	Master Works Software Pvt Ltd and Tru Projects Hyderabad based Company	4,00,000	On Campus
Md Shahab Musharaf	B.Tech in CS	Master Works Software Pvt Ltd and Tru Projects Hyderabad based Company	4,00,000	On Campus
Md Abdul Rahman	B.Tech in CS	Master Works Software Pvt Ltd	4,00,000	On Campus
TAUQEER SAYEED	B.Tech in CS	Tru Projects Hyderabad based Company	2,00,000-300,000	On Campus
MD FAIZUR RAHMAN	B.Tech in CS	Tru Projects Hyderabad based Company	2,00,000-300,000	On Campus
MOHAMMAD ASAD	B.Tech in CS	Tru Projects Hyderabad based Company	2,00,000-300,000	On Campus
MEHRUN NISA	B.Tech in CS	Tru Projects Hyderabad based Company	2,00,000-300,000	On Campus
MOHD SHAHID	B.Tech in CS	Tru Projects Hyderabad based Company	2,00,000-300,000	On Campus
MD GULAB	B.Tech in CS	Tru Projects Hyderabad based Company	2,00,000-300,000	On Campus
MD FAIZUR RAHMAN	B.Tech in CS	Tru Projects Hyderabad based Company	2,00,000-300,000	On Campus
MD SHAHIM YAWAR ALI A	ANSA B. Tech in CS	Tru Projects Hyderabad based Company	2,00,000-300,000	On Campus
Tarique Khan	M.Tech in CS	Lords Institute of Engineering and Technology	4,20,000	Off Campus
Md Dilshad	M.Tech in CS	Mallareddy Institue of Technology and Science	4,20,000	Off Campus
Md Naushad	M.Tech in CS	CMR college of Engineering and Technology	4,20,000	Off Campus
Saheen Fatma	M.Tech in CS	CMR college of Engineering and Technology	4,20,000	Off Campus
Aqeel Haider Shams	M.Tech in CS	Lords Institute of Engineering and Technology	4,00,000	Off Campus
Ashiquee Hussain	M.Tech in CS	Lords Institute of Engineering and Technology	4,00,000	Off Campus
Md Ahmad Raza	M.Tech in CS	MANUU	6,00,000	Off Campus
Md Nadeem Noori	M.Tech in CS	MANUU	6,00,000	Off Campus
MD AATIF ARSALAN	MCA	Genpact	2,50,000	Off Campus

39 Details of Participation of the Teachers/Scholars/Students in Conferences, Seminars, Workshops etc. :

Name of the Participant	Programme pursuing (In case of student/Scholar)	Name of the Conference/ Seminar/ Workshop attended	Organiser and Date & Venue	Participated as paper presenter/poster presenter/participant/others(s pecify)	Title of the Paper/Poster presented	Details of Sponsership/funding/grant recieved (if any)
Dr. Syed Imtiyaz Hassan	Faculty	National Conference on Sustainable Solutions for Community Services through Engineering	KL Deemed to be University	Presenter	Contextualizing sustainable solutions for rural development	No Funding
Dr. Khaleel Ahmad	Faculty	12 IEEE International Conference on Communication Systems and Network Technologies (CSNT-2023)	Technocrats Institute of Technology (Excellence) Bhopal, 8-9 April 2024	Presenter	Hyperledger Fabric Enabled Vaccine Intelligent Network to Implement Immunization Program	No Funding
Dr. Muqeem Ahmed	Faculty	4th International Conference on ICT for Digital, Smart and Sustainable Development	Department of Computer Science and Engineering, School of Engineering Science and Technology, Jamia Hamdard, New Delhi and April 23-24, 2024	Presenter	Comprehensive Approach	No Funding
Dr. Muqeem Ahmed	Faculty	International Conference on Computation of Artificial Intelligence and Machine Learning	Department of AI & ML, School of Computer Science and Engineering, Manipal University, Jaipur and January 18-19, 2024	Presenter	An Efficient Ontology Based Chronic Disease Diagnosis Model	No Funding
Dr Jameel Ahamed	Faculty	4th International Conference on Data Analytics & Management	London Metropolitan University, London, UK	Presenter	Safeguarding IoT: Harnessing Practical Byzantine Fault Tolerance for Robust Security	

Dr Jameel Ahamed	Faculty	Information System Design & Intelligent Applications	HIVE Pro, Dubai UAE	Presenter	Machine Learning Algorithms for Early Detection of Diabetes: An Indian Perspective	Funding by MANUU
Mr. Mohammad Islam	Faculty	IEEE International Conference on Machine learning and Applied Network Technologies (ICMLANT 2023)	San Salvador, El Salvado, 14-15 December 2023	Presenter	Understanding Intellectual Disability and Genetics with AI Perspective: A Text Mining Approach	
Mr. Mohammad Islam	Faculty	Springer 4th International Conference on Intelligent Systems & Networks	Swinburne Vietnam, Hanoi Location, Vietnam, held on March 23, 2024	Presenter	Machine Learning driven Framework to predict the Intellectual Disability	
Ms. Geeta Pattun	Faculty	IEEE International Conference on Machine learning and Applied Network Technologies (ICMLANT 2023)	San Salvador, El Salvado, 14-15 December 2023	Presenter	Understanding Intellectual Disability and Genetics with AI Perspective: A Text Mining Approach	
Mr. Mohd Omar	Faculty	8th International Conference on Research in Computing in Engineering (RICE 2023)	Department of Computer Science and Information Technology School of Technology Maulana Azad National Urdu University, Hyderabad, India jointly Co-organized by Universidad Don Bosco, El Salvador, CA, and 1 - 2 December 2023	Presenter	Deep Learning-Based Road Potholes Detection using YOLOv8	
∕Ir. Mohatesham Pasha Quadri	Faculty	8th International Conference on Research in Computing in Engineering (RICE 2023)	Department of Computer Science and Information Technology School of Technology Maulana Azad National Urdu University, Hyderabad, India jointly Co-organized by Universidad Don Bosco, El Salvador, CA, and 1 - 2 December 2023	Presenter/Contributed	Social Platform Chat Analysis - A Review on Tools, Techniques, Challenges and Future Direction	No Funding
Mr. Mohatesham Pasha Quadri	Faculty	International Conference on Innovative Computing and Communication (ICICC-2024)	Shaheed Sukhdev College of Business Studies, University of Delhi, New Delhi, India in association with the NIT Patna, India and the University of Valladolid, Spain 16th -17th February 2024	Presented	Corpus Based Machine Translation for English to Low Resource Language using OpenNMT	No Funding
/Ir. Mohatesham Pasha Quadri	Faculty	International Urdu Science Conference-2024 at MANUU organized by School of Sciences, MANUU	School of Sciences, MANUU Maulana Azad National Urdu University, Hyderabad, India 4th - 5th March 2024	Presenter/Contributed	Progress in Sentiment Analysis on Social Platform	No Funding

Note: please provide the sanction letter/permission for attending the confrence/seminar/workshop and participation certificate (if any)/registration details.

Describe at least two best practic	ces of the Department in the format given below:
1.1.Title of the Practice	Display and Discussion of the Answer Scripts
1.2. Objectives of the Practice What are the objectives / intended outcomes of this "best practice" and what are the underlying principles or concepts of this practice ?	Showing the answer scripts to the students and holding discussion on answer scripts with them is a practice aimed at one hand, to improve and strengthen the lea

1.3. The Context What were the contextual features or challenging issues that needed to be addressed in designing and implementing this practice ?	The Academic Council of MANUU in its 32ndMeeting held on 4th October 2018, on the request of student community to make the answer booklet available to them after evaluation, discussed the matter at length and resolved to constitute a Committee to examine the feasibility of making the answer scripts available to students, as part of the examination reforms. (https://manuu.edu.in/sites/default/files/2020-01/32nd%20AC%20Minutes_0.pdf) The Committee held a meeting on 30th January 2019 in the office of the Controller of the Examination and discussed various issues involved in making the the answer scripts available to the students after the evaluation. The Committee evolved a procedure in this regard, and submitted the minutes of the meeting to the Vice Chancellor on 15th February 2019. The minutes of the meeting were placed in the 34th Academic Council meeting held on 7thMarch 2019, wherein they were approved and the practice was ready to be implemented for the semester examination scheduled in May 2019. (https://manuu.edu.in/sites/default/files/2019-10/Minutes_of_34th_AC_Meeting.pdf) Further, the Committeedecided to discuss the initiative with all the stakeholders of MANUU, particularly with the teaching faculty. Subsequently, a workshop was conducted jointly by Examination Branch, Internal Quality Assurance Cell (IQAC) and Centre for Information Technology (CIT), with the theme, Examination Reforms on 16th April 2019, and its webcast was made live all across MANUU campuses and Colleges of Teacher Education (CTEs) in India. This is followed by a lengthy session of discussion with the faculty (YouTube: https://youtu.be/nIYdanLWaIE). After the workshop, the issues raised by the teaching faculty of MANUU, were clarified by Examination Branch and IQAC in an orderly way. (https://manuu.edu.in/sites/default/files/MANUU-IC/2021-03/Clarifications.PDF) MANUU had issued a press release of the workshop and implementation of the system of display of answer scripts to the students. A wide coverage in the press had been given o
1.4. The Practice Describe the practice and its uniqueness in the context of India higher education. What were the constraints / imitations, if any, faced ?	The general dissatisfaction of the students in respect of the marks and the grades that they score is addressed through this practice of showing the answer scripts to them and holding discussion thereof with them. This initiative provides students the opportunity to see what they have written, and how have they been evaluated, and where is the scope for their improvement. After conducting the examination, the Examination Branch had sent the answer scripts to the Heads of the Departments for distribution of the answer scripts to the respective teachers who taught the courses. After evaluation, scrutiny and moderation, the teachers were allowed to show the answer scripts to the students and hold discussion with them. The students had been asked to visit the teachers who taught any course to them and see their answer script and seek clarification or suggestion if any. Since one to four days had been allocated for the display and discussion on the answer scripts, the teachers stayed back during the allocated period from morning till evening to show the answer scripts and discussing about their performance, the students were required to sign the attendance proforma of display of the answer scripts. When the display and discussing about their performance, the students were required to sign the attendance proforma of display of the answer scripts. When the display and discussion period was over, the teachers entered the marks in their respective iUMS portal, and the answer scripts and the attendance proformas were sent to the Examination Branch. Consequent upon receiving these, the Examination Branch declared the results. The moderation boards of all the departments and colleges had taken care to address the issues of scrutiny, and over or under awarding of marks, before the answer scripts made available for the students. It has been made clear to all the students that if any of them is not satisfied with the marks awarded to him/her, he/she can approach the Examination Grievance Redressal Committee (EGRC) in the Depa

1.5. Evidence of Success Provide	The practice had been appreciated by the students. A good number of students showed up to see their answer scripts, as it is evident from the attendance proforma of answer script display		
vidence of success such as As the practice of displaying and discussing of the answer scripts commenced from the even/end semester examinations, that is, May 2019, a large number of students had

This practice is conceived bearing in mind the objects of Maulana Azad National Urdu University (MANUU), which are to promote the Urdu language in higher education. It is felt that the quickest way to promote any language and its culture, at present, is to advance it through digital means. Therefore, MANUU has entrusted the responsibility to its Instructional Media Centre (IMC) to produce in-house educational programmes which help MANUU achieve its objects and mandate. Accordingly, IMC began producing in-house multimedia educational programmes and then started disseminating these through IMC MANUU YouTube Channel. MANUU now boasts of a large repository of curriculum based audio-visual programmes of various streams like arts, languages, education and training, sciences, social sciences, and so on. All these programmes are available to all the masses free of cost all across the globe. These audio-visual programmes can be accessed by the students and the teachers as per their convenience. Further, a large chunk of Indian Urdu diaspora is deprived of quality content in Urdu. It is believed that the dissemination of knowledge enriching programmes through digital platforms is accomplished through this practice. MANUU is probably the only University in India which has been producing higher education digital content in Urdu in a structured way.
IMC MANUU YouTube Channel was formally launched in December 2017 after proper designing of its cover page and content. The Channel's logo was created; categories were created for different departments/centers etc. so that surfing becomes easy for students. This categorization was developed on the basis of research, subjects and genre & nature of programmes. The Channel was launched with a proper programming for a week so that audience are retained and added over a period of time. For the uploading of the programmes, the viewing habits of the general viewers and the target audience was considered. With sustained efforts, this higher education audio-visual platform of MANUU now has a subscription of over 35000 Users.
The IMC MANUU YouTube Channel (www.youtube.com/imcmanuu) has all the curriculum-based A/V programmes uploaded at the channel. Additionally, the e-content platform has also been created https://manuu.edu.in/University/manuu-e-content).
Besides providing curriculum based programmes, IMC MANUU YouTube Channel also caters to the general audience with a wide array of documentaries of general interest on the Urdu language and culture as well.
. Students can also have access to important academic events, seminars, workshops, symposiums etc.(www.youtube.com/imcmanuu and https://www.youtube.com/imcmanuu)
Besides providing educational content at IMC MANUU YouTube Channel, IMC has also created social media platforms of the University and Facebook pages for most of the departments. The relevant audio-visual lectures/material from IMC MANUU archive are being uploaded on respective pages. This is one of the unique experiments wherein most of the departments have their Facebook pages along with relevant audio-visual educational resources. The teaching faculty at MANUU are being sensitized to make best use of various social media platforms for disseminating academic content, and reflecting the achievements and educational activities of MANUU, and share MANUU's initiatives on social media platforms with other Institutions as well.
Facebook provides opportunities to create a focused group for a particular subject where the group can connect with best teachers in the subject all across the world. Teachers-Students may share resources for a pre-class/post-class discussion on a topic. Since students are already using social media away from the classroom, integrating it into the classroom helps students learn best practices in the subject as it offers an interesting new twist on lessons for pre-class discussions

a) Initiatives to address locational advantages and disadvantages	Skill development and education: To maintain its advantage of a skilled workforce, initiatives should focus on strengthening the education system and promoting skill development programs. Collaborations between IT companies, educational institutions, and government bodies can be established to design specialized courses and training programs aligned with industry needs. Entrepreneurship support: Encouraging entrepreneurship and startup culture can help leverage the advantages of Hyderabad. Initiatives like incubation centers, mentorship programs, and access to funding can be established to support the growth of startups and promote innovation within the IT sector. Collaboration with research institutions: Collaborating with research institutions and fostering a culture of research and development can enhance the competitiveness of the IT hub. Partnerships between IT companies and research institutions can facilitate knowledge exchange, technological advancements, and the development of cutting-edge solutions. Addressing environmental concerns: Hyderabad faces challenges related to environmental sustainability, such as air pollution and water scarcity. Initiatives to address these concerns can include promoting green practices within IT companies, investing in renewable energy sources, and implementing water conservation measures. Work-life balance and employee well-being: To attract and retain talent, initiatives should focus on promoting work-life balance and employee well-being. Encouraging flexible work arrangements, creating recreational spaces, and organizing wellness programs can contribute to a healthier and happier workforce. Strengthening cybersecurity measures: With the increasing reliance on technology, cybersecurity has become a critical concern. Establishing robust cybersecurity measures and promoting awareness about cyber threats can help protect the IT infrastructure and maintain the trust of businesses and individuals.
b) Initiatives taken to engage with and contribute to local community	resources, expertise, or funding to support specific projects or programs. Employee skill-sharing and mentoring: Companies can offer opportunities for their employees to share their skills and knowledge with the local community. This could include mentoring programs for students, hosting workshops or training sessions, or providing pro bono consulting services to local nonprofits. Environmental initiatives: Engaging in environmentally friendly practices and sustainability initiatives can benefit both the company and the community. This may involve participating in local clean-up campaigns, implementing eco-friendly business practices, or supporting local conservation efforts. Community engagement events: Hosting events that are open to the public can help build relationships with the local community. This could include organizing job fairs, educational workshops, health and wellness initiatives, or cultural celebrations. Educational partnerships: Collaborating with local educational institutions is a valuable way to engage with the community. Businesses can offer internships, scholarships, or career development opportunities for students, or participate in educational initiatives such as guest lectures or mentoring programs.
c) Date and duration of the initiative	1st April 2023 to 30th May 2024
d) Issues addressed and outcomes/impact	Skill Development & Education: Addressed the gap between academic learning and industry needs. Students gained relevant skills, improving their job prospects and confidence in entering the workforce. Internship Projects: Provided exposure to real-world business challenges. Students gained valuable insights and hands-on experience by working on actual projects, improving problem-solving skills and understanding of industry practices. Environmental Concerns: Raised awareness of sustainability issues. Students became more environmentally conscious and actively participated in green initiatives. Work-Life Balance: Highlighted the importance of well-being alongside academic performance. Students experienced better stress management and a more balanced approach to studies and life. Cybersecurity: Emphasized the importance of digital safety. Students became more vigilant and knowledgeable about cybersecurity practices, enhancing their online safety.
