

Resume

Dr. Md. Sabir Ali

Assistant Professor

Maulana Azad National Urdu University, Hyderabad, INDIA

sabir@manuu.edu.in |  +91 9065161816

[Google Scholar](#) | [ORCID](#)

Professional Summary:

PhD in Experimental Nuclear Physics with 10+ years of teaching and research experience.

Published 15+ papers in high-impact journals (e.g., *Physical Review C*). Recipient of the Al Burj R. Rahman Award for outstanding PhD thesis. Seeking to advance research in fusion dynamics while mentoring students at the university level.

Academic Qualifications:

- ◆ **Ph.D. in Experimental Nuclear Physics (2016) Aligarh Muslim University**
Thesis: Study of Fusion Dynamics in Heavy Ion Interactions Below 8 MeV/nucleon
- ◆ **M.Sc. in Physics (2008) | B.Sc. in Physics (2006)**
Aligarh Muslim University| First Division

Research Profile:

1. Research Focus

- **Field:** Experimental Nuclear Physics
- **Specialization:** Heavy-ion interactions, fusion dynamics, incomplete fusion reactions at low energies (\approx 4–8 MeV/nucleon).
- **Key Themes**
 - Fusion suppression mechanism.
 - Role of projectile breakup and neutron transfer in fusion reactions.
 - Systematic studies of entrance channel parameters (e.g., critical angular momentum, Q value)

2. Methodologies & Techniques

- **Experimental:** Recoil range measurement, activation technique, particle and gamma ray detector
- **Data Analysis:** Origin, ROOT, Python-based simulation, CANDLE, CCFULL, PACE4, FRESCO
- **Collaborations:** AMU Aligarh, IUAC New Delhi, BARC Mumbai, JINR Dubna

3. Major Contributions

- Discovered ~20% fusion suppression for α -clustered projectiles (*Phys. Rev. C*, 2019).
- Established a systematic correlation between projectile breakup threshold energy and incomplete fusion probability (*Journal of Phys. G*, 2023).
- Proposed a new critical angular momentum limit for fusion incompleteness in ^{20}Ne induced reactions (*European Phys. J. Plus*, 2024).

4. Ongoing/Future Research

- Investigating positive Q value neutron transfer effect on above barrier fusion suppression (UGC-funded project).
- Expanding studies to exotic nuclei using advanced detection systems.
- Developing interdisciplinary applications in nuclear astrophysics, medical physics or energy research.

5. Grants and Projects

- **Principal Investigator (Ongoing):**
 - "Systematic study of positive Q value for neutron transfer effects on above barrier fusion suppression" (UGC-MANUU, 2023–Present).
- **Completed Projects:**
 - "Influence of entrance channel parameters on fusion suppression" (UGC-MANUU, 2020–2022).

Awards & Fellowships

- **Al Burj R. Rahman Award** (2016): Best PhD Thesis, AMU Aligarh.
- **Oral Presentation Prize** (2022): National Conference on Nuclear Dynamics, AMU.
- **Maulana Azad National Fellowship** (2010–2014): Ministry of Minority Affairs, Govt. of India.

Technical Skills

- **Experimental:** TEM, XRD, Cryogenics, Recoil Range Measurements
- **Computational:** Python, MATLAB, LaTeX, Origin, ROOT
- **OS:** Linux, Windows

Professional Affiliations

- Member, Indian Physics Association (IPA)
- Member, DAE Symposium on Nuclear Physics
