FILM SCREENING
ON

TRIBAL EMPOWERMENT

31st March 2023

College of Teacher Education, Bhopal

To make apprise to the prospective teachers for tribal empowerment, a documentary film was screened on 31 March 2023 on the topic of tribal empowerment. Firstly, Dr. Shabana Ashraf, convenor of the programme briefed the prospective teachers on the documentary film, and on how our tribes are a part of the unique identity of India. The documentary makes viewers aware of the realities and needs of the members of tribal communities. The experts of tribal matters and the members of the different tribes of India voiced that social exclusion as a major obstacle to health and well-being of the tribal community.

The documentary extrapolated on how the major reasons for the present-day backwardness of the tribes included a lack of education in their cultural languages, as well as an overall lack of accessibility to education due to no local teachers. Also, the schools that are available to these communities have a lacking infrastructure. These barriers serve to deter them from education, resulting in these communities being unable to empower themselves, thereby finding themselves excluded from the development the rest of the country enjoys. The documentary further provided several suggestions for tribal empowerment, all of which are important for a prospective teacher to keep in mind; such as linking school activities to local tribal activities; ensuring their participation in curriculum and content; giving their traditions their deserved respect; creating an

environment where they feel included (which requires effort on part of the teachers just as much as from the student body). The film was followed by the extensive and enlightening discussion.
