27	So much worst experience of learning or getting taught by someone. I have never expected to get teachers who give priority to those students who are close to him. I always feel that he is not supportive for student. If university wants to be remembered by its quality education then some action must be taken. Most of the time he teaches the ceiling. When someone asks little more questions, he used call him in office and starts to keeping eyes on his or her activity. Course is very nice. Also i suggest to improve material resources for students.
