New Delhi-110011, dated the 20

Dear Sir,

Ministry of Housing and Urban Affairs (MoHUA), in collaboration with Ministry of Education (MoE) and All India Council of Technical Education (AICTE) has developed 'The Urban Learning Internship Program (TULIP)', a platform to provide internships to students and Graduates/Post Graduates/Diploma holder in ULBs, Smart Cities, Parastatals of States/UTs. The internship has benefitted more than 5 thousand students across the country. Under the Missions for urban poor i.e. DAY-NULM and for Street Vendors i.e. PMSVANidhi respectively, the States/UTs have been advised to engage interns under the TULIP programme. (Copy attached)

2. Both the Missions strive to improve the livelihood of the most vulnerable and poor population in urban areas, who need constant handholding / financial support. In this regard, the students from elite institutions including *inter alia* IIMs, IITs, and NITs, if engaged to work as interns with States/Urban Local Bodies, will get an excellent understanding and exposure in social sector, that may go a long in solving the myriad problems of this vulnerable group. Moreover, the energy and ideas that these youths bring in may catalyse the endeavour of field level functionaries under both the Missions.

3. In view of the above, I will be grateful, if the elite Institutions under Ministry of Education are requested to share this information with their students so as to encourage them to join the TULIP programme and be a partner in the movement of poverty alleviation. They may get the details of scheme from https://internship.aicte-india.org/module_ulb/Dashboard/TulipMain/. The contact details of both Missions are available at https://nulm.gov.in/PDF/ContactUs_Details_NULM.pdf and <https://pmsvanidhi.mohua.gov.in/Home/Contact>.

with high regards,

Yours sincerely,

The Urban Learning Internship Program

GUIDELINES

The Urban Learning Internship Program (TULIP)

Introduction

Rapid paced urbanization and urban ecosystems could provide a high valued exposure to the students on the functioning and governance of cities and can develop/groom budding human resources equipped to address the complex challenges that cities face. The graduates/undergraduates functionally equipped with skills to manage the emergent challenges of urban areas and motivated to experiment new solutions would be a great resource for the cities and its citizens, and in turn which may expand the career horizons for these students.

'The Urban Learning Internship Program (TULIP)' launched by MoHUA in association with All India Council for Technical Education (AICTE) is designed to match opportunities in Urban Local Bodies (ULBs)/ State Urban Development Agency (SUDA)/ other parastatal bodies with learning needs of graduates/undergraduates for grooming them to explore carrier opportunities in urban sector and devise high-impact solutions to key urban problems. MoHUA will provide programmatic guidance, facilitation of stakeholders and jointly coordinate with AICTE in managing and operationalising the TULIP portal that facilitates the aspiring graduates/undergraduates in undertaking this journey.

States & UTs having deeper understanding of the emerging challenges of urbanization and city management are well placed to effectively implement TULIP by matching needs of the ULBs /SUDA with skills developed through such internships. It is envisaged that TULIP interns would get exposure in a large number of areas, viz., including but not limited to urban planning, urban design, different branches of engineering, information and technology, mobility, finance, social sector issues and environmental issues etc. Moreover, these graduates/undergraduates will get first-hand experience of working with city officials, civil society and multiple stakeholders that will help in their future endeavour. They will be oriented towards best practices, knowledge sharing and project implementation on ground. The interns will carry with them a rich experience in urban governance which will help them in their future endeavours.

Internship under TULIP

An internship may be considered as educational and career development opportunities, providing practical learning experience in a field or discipline. It gives an opportunity for career exploration and development and to learn a new skill. On the other hand, it offers the employer (ULBs/SUDA) the opportunity to bring new ideas and energy into the workplace.

As part of TULIP, the intern gets an opportunity to apply their academic learnings in the complex dynamics of urban India, with excellent potential for professional development. The program is designed such that ULBs/SUDA have incentives to offer a structured working and learning experience for their own benefit and have complete flexibility in offering competitive stipends to deserving interns.

Key benefits of the Programme

Interns bring knowledge, skills, and enthusiasm that augments capacity and rejuvenates the ULBs. Interns can both be engaged in existing projects of the ULB as well as tasked with scoping or analyzing problems on the urban agenda of the city. Thus, an internship program can bring numerous benefits to the ULB/SUDA including:
