A Communication cited in the reference above is received from UGC regarding creating awareness about ill-effects of drug addiction. It is informed that the youth are becoming highly dependent on drugs and substances which are not only ruining their academic career but are a financial burden on their families. It is moral duty of institutions to educate youth about various adverse effects of these intoxicants.

At institutional, level the university plans to take various measures in this regard. Apart from this at the school and department level you are requested to create awareness among students using opportunities like annual day, fresher's day, farewell parties and other cultural programmes to underscore the ill of addiction. A communication regarding the initiatives and actions taken in this regard would be highly appreciated.
