No.MANUU/Estate&Transport/F.141/2026-27/ 59 10th November, 2026

CIRCULAR

Sub: Avoid feeding of dogs in the campus - Regarding.

The number of stray dogs in the University Campus have increased and are causing danger to health and lives of campus residents. Several complaints have been received from the campus residents about the menace being caused by these dogs. The University has been regularly arranging the Dog Catching Squads from GHMC for catching the stray dogs from the Campus.

It has also been brought to notice of the Authorities that dogs are being fed in the University Campus. The Authorities have taken a serious note of it and have directed for refraining from such activities. If any person found guilty, suitable action may be taken against him/her.

In view of the above, all the stake holders of the University Campus are requested to avoid feeding the dogs in the University Campus.
