### **ABSTRACT**

*In this research paper I tried to identify the various dimensions of values and professional aptitude of B.Ed. girls students and also to investigate the relationship of values and professional aptitudes of B.Ed. girls students with their academic achievement. For this purpose the sample of study consisted of 300 girls students doing B.Ed. from various NCTE, recognized B.Ed. colleges of private, state government and central government of Bidar district, Karnataka. Tool used for identification of values of B.Ed. girls students was "Brief Scale of Values (B.S.V.)" developed by Dr. Yashweer Singh of Agra, and in order to know the teaching aptitude of B.Ed. girls students, the researcher has used Teaching Aptitude Test Battery (T.A.T.B) developed by Dr. R.P. Singh and Dr. S.N. Sharma of Patna University.*

**Key words:** Values, Professional Aptitude, Academic Achievement

### **Introduction**

Education is the most potent mechanism for the advancement of human beings. It is the very foundation of good citizenship especially for girl child because it is a principal instrument in awaking the child to cultural values, in preparing her for later professional training and in helping her to adjust normally to their environment. Education must be general as well as professional. Professional education usually refers to the education that prepares individual directly for professional jobs, such as law, medicine, engineering, teaching etc.

### **Meaning of Profession**

A profession is a vocation founded upon specialized educational training, the purpose of which is to supply objective counsel and service to others, for a direct and definite compensation, wholly apart from expectation of other business gain.
